EXPERIENCE

2019 FRONT-END WEB DEVELOPER

2016 Tufts University, Digital Services

Built a scalable web framework to support rapid production of Drupal 8 websites.
Increased efficiency by standardizing front-end development approaches and workflows.
Developed Tufts Magazine, tuftsmagazine.com, a digital first content platform.
Spearheaded the rollout and implementation of Tufts University's first Digital Accessibility Policy.

2016 INTERFACE DESIGNER

2013 Boston College, ITS

Redesigned Boston College's primary website, bc.edu, on the AEM platform.
Developed the UI for Boston College's Student Information System using AngularJS.
Worked directly with university clients, managing all aspects of the software development lifecycle.

2013 WEB DESIGNER / DEVELOPER

2010 Boston College, University Advancement

Designed and developed the University Advancement Website using Bootstrap.
Developed HTML prototypes and UI deliverables, such as wireframes and concept designs.
Managed PHP, APEX, and custom developed web applications.

2009 PROJECT MANAGER

2007 Polar Design / IMS, LLC

Managed interactive web and multimedia design projects for a varied client base.
Developed design documents, interface wireframes, sitemaps, and project outlines.
